Banyard, S.G., *see* Schreuder, H.T. et al.
Barnes, B.V., *see* Hix, D.M. et al.
Bockheim, J.G., *see* Johnson, J.E. et al.
Boerner, R.E.J., *see* Plymale, A.E. et al.
Braekke, F.H. (Ås, Norway)
Nutrient relationships in forest stands: effects of drainage and fertilization on surface peat layers 269
Brink, G.E., *see* Schreuder, H.T. et al.
Chamshama, S.A.O. and Hall, J.B. (Morogoro, Tanzania)
Effects of nursery treatments on *Eucalyptus camaldulensis* field establishment and early growth at Mafiga, Morogoro, Tanzania 91
Erdmann, G.G., *see* Johnson, J.E. et al.
Evans, J. (London, Great Britain)
Site and species selection — changing perspectives 299
Furnival, G.M., *see* Gregoire, T.G. et al.
Goudie, J.W. (Victoria, B.C., Canada) and Moore, J.A. (Moscow, Idaho, U.S.A.)
Growth and yield of leucaena in the Philippines 285
Gregoire, T.G. (Blacksburg, Va, U.S.A.), Valentine, H.T. (Hamden, Conn., U.S.A.) and Furnival, G.M. (New Haven, Conn., U.S.A.)
Sampling methods for estimating stem volume and volume increment 311
Gustafsson, L. (Uppsala, Sweden)
Plant conservation aspects of energy forestry — a new type of land use in Sweden 141
Haag, C.L., *see* Johnson, J.E. et al.
Hall, J.B., *see* Chamshama, S.A.O. and Hall, J.B.

Hiebert, P., *see* Kellman, M. et al.
Hinckley, T.M., *see* Tucker, G.F. et al.
Hix, D.M. (Madison, Wis., U.S.A.), Barnes, B.V. (Ann Arbor, Mich., U.S.A.), Lynch, A.M. (Tucson, Ariz, U.S.A.) and Witter, J.A. (Ann Arbor, Mich., U.S.A.)
Relationships between spruce budworm damage and site factors in spruce-fir-dominated ecosystems of western Upper Michigan 129
Hutto, R.L. (Missoula, Mont., U.S.A.)
Effect of systemic pesticide implants on the level of western spruce budworm infestation: treatment and post-treatment years 231
Jiang, S.-M., *see* Tucker, G.F. et al.
Johnson, J.E. (Stevens Point, Wis., U.S.A.), Haag, C.L. (Escanaba, Mich., U.S.A.), Bockheim, J.G. (Madison, Wis., U.S.A.) and Erdmann, G.G. (Rhinelander, Wis., U.S.A.)
Soil-site relationships and soil characteristics associated with even-aged red maple (*Acer rubrum*) stands in Wisconsin and Michigan 75
Kellman, M., Miyanishi, K. and Hiebert, P. (Downsview, Ont., Canada)
Nutrient sequestering by the understorey strata of natural *Pinus caribaea* stands subject to prescription burning 57
Kozłowska, E., *see* Oleksyn, J. et al.
Leverenz, J.W., *see* Tucker, G.F. et al.
Logan, T.J., *see* Plymale, A.E. et al.
Lopez-Mata, L. (Estado de México, México)
Genecological differentiation in provenances of *Brosimum alicastrum* — a tree of moist tropical forests 197

Lulandala, L.L.L. and Hall, J.B. (Morogoro, Tanzania)
Fodder and wood production from *Leucaena leucocephala* intercropped with maize and beans at Mafiga, Morogoro, Tanzania 109
Lynch, A.M., *see* Hix, D.M. et al.
McPherson, G.R. and Wright, H.A. (Lubbock, Tex., U.S.A.)
Factors affecting reproductive maturity of redberry juniper (*Juniperus pinchotii*) 189
Miyanishi, K., *see* Kellman, M. et al.
Moore, J.A., *see* Goudie, J.W. and Moore, J.A.
Oleksyn, J. (Kórnik, Poland), Oleksynowa, K., Kozłowska, E. (Kraków, Poland) and Rachwał, L. (Kórnik, Poland)
Mineral content and the sensitivity of black pine (*Pinus nigra*) of various provenances to industrial air pollution 237
Oleksynowa, K., *see* Oleksyn, J. et al.
Plymale, A.E., Boerner, R.E.J. and Logan, T.J. (Columbus, Ohio, U.S.A.)
Relative nitrogen mineralization and nitrification in soils of two contrasting hardwood forests: effects of site microclimate and initial soil chemistry 21
Rachwał, L., *see* Oleksyn, J. et al.
Ramakrishnan, P.S., *see* Rao, K.S. and Ramakrishnan, P.S.
Rao, K.S. and Ramakrishnan, P.S. (New Delhi, India)
Comparative analysis of the population dynamics of two bamboo species, *Dendrocalamus hamiltonii* and *Neohouzeua dulloa*, in a successional environment 177
Schreuder, H.T. (Fort Collins, Colo., U.S.A.), Banyard, S.G. (Enschede, The Netherlands) and Brink, G.E. (Fort Collins, Colo., U.S.A.)
Comparison of three sampling methods in estimating stand parameters for a tropical forest 119
Shea, S.R., *see* Shearer, B.L. and Shea, S.R.
Shearer, B.L. and Shea, S.R. (Dwellingup, W.A., Australia)
Variation in seasonal population fluctuations of *Phytophthora cinnamomi* within and between infected *Eucalyptus marginata* sites of southwestern Australia 209
Siebert, S.F. (Ithaca, NY, U.S.A.)
Land use intensification in tropical uplands: effects on vegetation, soil fertility and erosion 37
Thang, H.C. (Kuala Lumpur, Malaysia)
Forest management systems for tropical high forest, with special reference to peninsular Malaysia 3
Tilghman, N.G. (Amherst, Mass., U.S.A.)
Characteristics of urban woodlands affecting winter bird diversity and abundance 163
Tucker, G.F., Hickley, T.M., Leverenz, J.W. and Jiang, S.-M. (Seattle, Wash., U.S.A.)
Adjustments of foliar morphology in the acclimation of understory Pacific silver fir following clearcutting 249
Valentine, H.T., *see* Gregoire, T.G. et al.
Witter, J.A., *see* Hix, D.M. et al.
Wright, H.A., *see* McPherson, G.R. and Wright, H.A.

Subject Index

Abies amabilis
Adjustments of foliar morphology in Pacific silver fir following clearcutting 249
Abies balsamea
Relationships between spruce budworm damage and site factors in spruce-fir ecosystems 129
Acer rubrum
Soil-site relationships and soil characteristics associated with *A. rubrum* 75
Agroforestry
Fodder and wood production from *Leucaena* intercropped with maize and beans 109
Land use intensification in tropical uplands: effects on vegetation, fertility and erosion ... 37
Bamboo
Population dynamics in a successional environment 177
Birds, *see* Fauna
Brosimum alicastrum
Genecological differentiation 197
Budworm, spruce, *see* Pests, weeds and diseases
Burning, *see* Management practices, effects of
Clearcutting, *see* Management practices, effects of
Conservation
Conservation aspects of energy forestry — a new type of land use 141
Douglas-fir, *see Psuedotsuga menziesii*
Drainage, *see* Management practices, effects of
Energy forestry
Conservation aspects of energy forestry — a new type of land use 141
Erosion
Land use intensification in tropical uplands: effects on vegetation, fertility and erosion ... 37
Eucalyptus camaldulensis
Effects of nursery treatments on establishment and early growth 91
Eucalyptus marginata
Population fluctuations of *Phytophthora* in *E. marginata* sites 209
Fauna
Characteristics of urban woodlands affecting winter bird diversity and abundance 163
Fertilization, *see* Management practices, effects of
Fir, *see Abies* spp.
Fodder production, *see* Agroforestry
Genecological differentiation
in *Brosimum alicastrum* 197
Intercropping, *see* Agroforestry
Juniperus pinchotii
Factors affecting reproductive maturity 191
Leucaena leucocephala
Fodder and wood production from *leucaena* intercropped with maize and beans 109
Leucaena in the Philippines 285
Management practices, effects of
Fodder and wood production from *Leucaena* intercropped with maize and beans 109
Foliar morphology, adjustments in Pacific silver fir following clearcutting 249
Land use intensification in tropical uplands: effects on vegetation, fertility and erosion ... 37
Management systems for tropical forest 3

Nitrogen mineralization and nitrification in hardwood forests:effects of microclimate soil chemistry 21
Nursery treatments effects, on *Eucalyptus camaldulensis* establishment and early growth 91
Nutrient relationships in forest stands: effects of drainage and fertilization 269
Nutrient sequestering by understorey of *Pinus caribaea* subject to prescription burning .. 57
Site and species selection — changing perspectives 299
Maple, red, *see Acer rubrum*
Maturity
Factors affecting reproductive maturity of *Juniperus pinchotii* 191
Microclimate, effects of
Nitrogen mineralization and nitrification in hardwood forests: effects of microclimate and soil chemistry 21
Mineral content
and the sensitivity of *Pinus nigra* to industrial air pollution 237
Modelling
Leucaena in the Philippines 285
Sampling methods for estimating stem volume and volume increment 311
Morphology
Adjustments of foliar morphology in Pacific silver fir following clearcutting 249
Nursery treatments, *see* Management practices, effects of
Nutrient dynamics
Nitrogen mineralization and nitrification in hardwood forests: effects of microclimate and soil chemistry 21
Nutrient relationships in forest stands: effects of drainage and fertilization 269
Nutrient sequestering by understorey of *Pinus caribaea* subject to prescription burning .. 57
Pesticides, *see* Management practices, effects of
Pests, weeds and diseases
Phytophthora, population fluctuations in *Eucalyptus* sites 209
Spruce budworm, relationships between damage and site factors in spruce-fir ecosystems 129
Systemic pesticide implants, effect on spruce budworm infestation 231
Phytophthora, see Pests, weeds and diseases
Picea mariana
Relationships between spruce budworm damage and site factors in spruce-fir ecosystems 129
Picea spp.
Nutrient relationships in forest stands: effects of drainage and fertilization 269
Pinus caribaea
Nutrient sequestering by understorey subject to prescription burning 57
Pinus nigra
Mineral content and the sensitivity to industrial air pollution 237
Pinus spp.
Nutrient relationships in forest stands: effects of drainage and fertilization 269
Pollution, sensitivity to
Mineral content and the sensitivity of *Pinus nigra* 237
Population dynamics
of bamboo in a successional environment 177
Population fluctuations of *Phytophthora* in *Eucalyptus* sites 209
Pseudotsuga menziesii
Effect of systemic pesticide implants on spruce budworm infestation 231

Root pruning, *see* Management practices, effects of
Salix spp.
Conservation aspects of energy forestry — a new type of land use 141
Sampling methods
Comparison of sampling methods estimating stand parameters for a tropical forest 119
Stem volume and volume increment estimation 311
Site characteristics
Nitrogen mineralization and nitrification in hardwood forests: effects of microclimate soil chemistry 21
Relationships between spruce budworm damage and site factors in spruce-fir ecosystems 129
Soil-site relationships and soil characteristics associated with *Acer rubrum* 75
Site selection, *see* Management practices, effects of
Soil characteristics
Land use intensification in tropical uplands: effects on vegetation, fertility and erosion ... 37
Nitrogen mineralization and nitrification in hardwood forests: effects of microclimate soil chemistry 21
Nutrient relationships in forest stands: effects of drainage and fertilization 269
Soil-site relationships and soil characteristics associated with *Acer rubrum* 75
Spacing, effects of, *see* Management practices, effects of
Species selection, *see* Management practices, effects of
Spruce, *see Picea* spp.
Tropical forestry
Genecological differentiation in *Brosimum alicastrum* 197
Land use intensification in tropical uplands: effects on vegetation, fertility and erosion ... 37
Management systems for tropical forests 3
Site and species selection — changing perspectives 299
Urban woodlands
Characteristics of urban woodlands affecting winter bird diversity and abundance 163
Water regime, effects of
Genecological differentiation in *Brosimum alicastrum* 197
Willow, *see Salix* spp.
